Advances in Citrus Water Use Workshop & Field Day

Tuesday, March 26, 2019
8:00 AM-3:00 PM
Strathmore, California

Register Now!

About the Field Day
Attend the Advances in Citrus Water Use Workshop & Field Day and join UC Davis Irrigation Specialist Daniele Zaccaria as well as other water experts and specialists from the University of California Cooperative Extension, the California Department of Water Resources, and the Citrus Research Board to learn about research advances in water use and irrigation for citrus production. Gain firsthand practical knowledge of the latest developments in the citrus industry and become familiar with methods and tools to measure evapotranspiration (ET) and crop coefficients (Kc), tree water status, and monitor soil moisture to inform irrigation planning and scheduling decisions for citrus.

What to expect?
Session topics include:

- Current research
- Water management and regulation
- Optional Field Session on irrigation technology

Registration Details
$35 registration fee includes admission to the field day, coffee, refreshments, and lunch.

Register online, here. Fee will increase on March 13.

Limited to the first 150 participants.
